PRELIMINARY AMENDMENT

Prior to the examination of the above-identified application on the merits, please amend
the above-identified application as follows:

IN THE CLAIMS:

Please cancel claim 1, without prejudice, and add new claims 15-28, as follows.

21
~~--15.~~ A method of forming a liquid crystal display device comprising the steps of:
forming a liquid crystal panel with a display area and having front and back surfaces and
a first plurality of edges;
forming a light unit with a second plurality of edges joined with the liquid crystal panel;
forming a first support frame supporting the light unit and having a portion that extends
parallel to at least one edge of the light unit;
forming a second support frame coupled to the portion of the first frame;
forming an outer casing; and
forming a fastening part joining together the first and second support frames and the
outer casing through the portion of the first support frame that is coupled to the second support
frame.--

~~--16.~~² The method according to claim ~~15~~¹, wherein the fastening part includes a screw hole.--
